

## California Immigrant Integration Initiative

Public Policy Institute of California 500 Washington Street, Ste 600 San Francisco, 94111  
September 11, 2019 | 9:30am - 4:00pm

The California Immigrant Integration Initiative creates opportunities for funders to **leverage the collective impact** of their grantmaking—and their leadership—to advance their institutional goals and fortify the immigrant funding field in California. The network has become a model for **peer learning and collaboration** for funders from across the country.

### Goals:

- Provide funders an opportunity to discuss strategies for addressing the impact of public charge
- Provide an update on long-term visioning and get feedback on framework for affirmative vision
- Develop priorities for the California Immigrant Integration Initiative in 2020
